About the Private Colleges and Universities of Florida

Private College and Universities of Florida, PCUF, is an organization of twenty-one of Florida's most competitive and prestigious private colleges and universities. Together we work with over 79,000 of the best and brightest college students from Florida, the United States and the world.

As an organization, our primary objective is to foster relationships with high school counselors within our state and increase counselors' and students' familiarity with all that Florida's private colleges and universities have to offer.

We believe that a private education can offer support, community, and mentorship that is a better fit than state institutions for many Florida high school students. Collectively, we are here to offer your students amazing opportunities, academically, athletically and socially.

A common goal of PCUF schools is to dispel the myth that a private college education is unaffordable. The state provides a dollar amount for each Bright Futures level to be applied to a private institution's costs. Each student also receives the Florida Resident Access Grant (FRAG) that can be applied to their costs. Additionally, families can use their pre-paid college fund savings toward tuition at a private school. There are many other scholarship and grant opportunities unique to each of our institutions. Representatives will be happy to discuss details with you.

Each PCUF school is unique in their own way. Collectively however, we offer hundreds of academic programs, scholarship programs, and extracurricular activities to meet your students' needs. We invite you and your students to visit our campuses and to contact us if there is anything further we can provide to you and your students.
